**EDUCATION****Singapore Management University****Aug 2023 – May 2027***BSc (Computing & Law), Second Major in Computing Studies (Cybersecurity)**GPA: 3.62 / 4.00 (magna cum laude)*

- Competitions: DBS x SG Courts Hackathon 2024 – Most Innovative; SMU LIT Hackathon 2025 – Ministry of Law Track Winner & Finalist
- Teaching Assistant: IS210 – Business Process Analysis & Solutioning; IS215 – Digital Business: Technologies & Transformation

---

**WORK EXPERIENCE****Shopee****May 2026 – Present***Brand Protection & Risk Data Analyst – Regional Brand Partnerships*

- Led end-to-end resolution of global brand partner queries on IP rights, Brand IP Portal enforcement, and cross-border listing takedowns, coordinating investigations with Shopee's regional Brand Protection teams across APAC and LATAM markets
- Owned SLA and enforcement data analysis for infringing listing removals, identifying trends across proactive and reactive takedown mechanisms
- Authored quarterly Brand Protection newsletter, consolidating regional IP enforcement updates and stakeholder inputs for external brand partners

**SMU School of Computing & Information Systems****Jan 2026 – Present***Undergraduate Researcher – DeFi Security*

- Developed a conceptual framework for systemic risk classification validated against 4,000+ vulnerability disclosures using an LLM-assisted extraction and classification pipeline, surfacing patterns relevant to security governance and platform resilience
- Built ETL and NLP pipelines to structure and classify large volumes of unstructured disclosure data, enabling analysis of cross-component risk

**Osborne Clarke****Dec 2025 – Jan 2026***Legal Intern – Corporate, Technology, Media & Telecom*

- Led legal analysis on content-platform liability, IP enforcement, and product-compliance trade-offs, translating regulatory risk into governance recommendations
- Developed playbooks for early-stage ventures, structuring governance frameworks, escalation paths, and decision-rights mechanisms

**PricewaterhouseCoopers LLP****May 2025 – Aug 2025***NewLaw Intern – LegalTech / LegalOps Consulting*

- Developed clause comparison datasets for 30 NDAs and Tax LOEs across client engagements and PwC's internal Tax practice, standardising equivalencies that were adopted for live CLM implementations
- Analysed 3,000+ law-firm partnership and headcount records, producing insights on structural trends for a strategic deck
- Conducted cross-jurisdictional analysis of AI regulatory frameworks, translating legal requirements into operational constraints for APAC clients

**Infocomm Media Development Authority****May 2025 – Jun 2025***Data Analyst (Contract)*

- Scoped and analysed 1,000 contract review and clearance records across IMDA divisions using Python ETL pipelines to surface workflow bottlenecks; presented findings to the General Counsel

**SMU Yong Pung How School of Law – Centre for Digital Law****Dec 2024 – Aug 2025***Research Assistant*

- Built a 500-paper structured dataset on Legal NLP and contributed literature review to a published survey on NLP in the legal domain

**Rajah & Tann Technologies****Jun 2024 – Nov 2024***Legal Tech Intern*

- Defined evaluation criteria and led PoC assessment for ZTNA, AI-powered document management, and workflow automation products, presenting recommendations to the CEO and COO
- Supported the forensics team's remote workflow infrastructure; built data preprocessing pipelines for eDiscovery and document production

---

**PROJECTS****BART – Statutory Reference Verification Tool | A&O Shearman Sterling LLP × SMU BSc(C&L) Capstone****Sep 2025 – Apr 2026***Team Lead · Scrum Master · Software Developer*

- Worked with A&O Shearman lawyers to identify drafting pain points and deliver a Word Add-in that automated reference verification, reducing a process from hours to near-instant with inline validity status and direct links
- Designed hybrid retrieval pipeline (sparse + dense embeddings, cross-encoder reranking) with automated corpus maintenance
- Led a cross-functional team of 7, managing backlog prioritisation, sprint planning, and translation between legal requirements and technical implementation

---

**PRO BONO****State Courts – Community Justice Centre (OSLAS)****Oct 2024 – Jan 2026***Legal Technologist & On-site Volunteer*

- Evaluated Thomson Reuters CoCounsel for court user guidance and public-facing procedural use cases.
- Provided weekly on-site legal triage and intake assessment, routing court users to appropriate referral pathways.
