EDUCATION

Singapore Management University **Aug 2023 – May 2027**
BSc (Computing & Law), Second Major in Computing Studies (Cybersecurity) *GPA: 3.62 / 4.00 (magna cum laude)*
- Summer exchange: University of Tokyo (GUC) – Law in Transnational East Asia (Jul 2026); Grade: A
- Teaching Assistant: IS210 – Business Process Analysis & Solutioning; IS212 – Software Project Management; IS215 – Digital Business

WORK EXPERIENCE

PricewaterhouseCoopers LLP **Oct 2026 – Present**
NewLaw Analyst – LegalTech & Legal Transformation Consulting
- Delivering legal department transformation engagements across operating strategy, process optimisation and practice management, mapping business and functional requirements to technology and process recommendations
- Driving the evaluation and implementation of legal technology solutions, including CLM and agentic AI platforms, for NewLaw engagements.

Shopee Singapore Pte Ltd **May 2026 – Aug 2026**
Regional Brand Protection Analyst (IPR) – Regional Brand Partnerships
- Managed 400+ e-commerce IPR enforcement cases across 10+ APAC and LATAM markets as direct point of contact for global brand partners, coordinating cross-border takedowns and resolving high-priority trademark and copyright escalations across Operations, Legal, and Product
- Owned IPR volume and SLA tracking for priority brands across FMCG, Electronics, Beauty, and Fashion & Lifestyle via regional dashboards

Osborne Clarke LLP **Dec 2025 – Jan 2026**
Legal Intern – Corporate, Technology, Media & Telecom
- Advised on registered design protection and contractual IP ownership transfer, framing regulatory risk as governance recommendations
- Analysed platform liability for marketplaces hosting third-party seller listings, covering IP infringement risk and product-compliance obligations

PricewaterhouseCoopers LLP **May 2025 – Aug 2025**
NewLaw Intern – LegalTech & Legal Transformation Consulting
- Produced clause equivalency mappings adopted in live CLM implementations, standardising across 30 NDAs and Tax LOEs for client engagements and PwC's internal Tax practice
- Conducted cross-jurisdictional analysis of AI regulatory frameworks, distilling legal requirements into operational constraints for APAC clients

Infocomm Media Development Authority **May 2025 – Jun 2025**
Data Analyst, Group Legal
- Presented workflow remediation findings to the General Counsel, drawn from Python ETL analysis of 1,500 contract review and clearance records across IMDA divisions to identify bottlenecks and handoff delays

Rajah & Tann Technologies **Jun 2024 – Nov 2024**
Legal Tech Intern
- Presented technology deployment recommendations to the CEO and COO after owning the end-to-end PoC lifecycle for ZTNA, AI document management, and workflow automation products, including evaluation criteria and vendor assessments with practice-side stakeholders
- Supported the forensics team's remote workflow infrastructure; built data preprocessing pipelines for eDiscovery and document production

ACADEMIC POSITIONS

SMU School of Computing & Information Systems **Jan 2026 – Present**
Undergraduate Researcher – DeFi Security
- Built a dual-reviewer LLM pipeline over 4,000+ vulnerability disclosures, refining prompts and classification criteria against manual review

SMU Yong Pung How School of Law – Centre for Digital Law **Dec 2024 – Aug 2025, Jul 2026 – Present**
Undergraduate Researcher – Legal AI
- Contributed to Singapore's first quantitative legal database with MinLaw; built a 500-paper Legal NLP dataset for "NLP in the Legal Domain"

PROJECTS

LegalQuants plugins for OpenAI's ChatGPT Enterprise | Astra for Law Launch Partner **Sep 2026**
Contributor
- Audited drafting and contract review skill PRDs and schemas, flagging gaps in redline dependencies, coverage reporting, and provenance handling
- Proposed a term-mapping output to catch defined-term drift when house wording is reused in counterparty documents; incorporated in the released skill

BART – Statutory Reference Verification Tool | A&O Shearman x SMU BSc(C&L) Capstone **Sep 2025 – Apr 2026**
Team Lead | Scrum Master | Software Developer
- Ran requirements discovery with A&O Shearman lawyers to isolate a drafting bottleneck, and delivered a Word Add-in inside their existing workflow that cut reference verification from hours to near-instant
- Designed hybrid retrieval pipeline (sparse + dense embeddings, cross-encoder reranking) with automated corpus maintenance
- Led a cross-functional team of 7, managing sprint planning and translating between legal requirements and technical implementation

Hackathons | SMU LIT Hackathon 2025, Ministry of Law Track Winner (Finalist Overall) | DBS x SG Courts Hackathon 2024, Most Innovative
